

WARNING

Please be advised that Geoffrey Taylor has no connection whatsoever with First Global Alliance (whoever they are). It is claimed in a press release in which Global Frantech is involved that a person with my name and qualifications is CEO of First Global Alliance. That is not true.

It would appear that First Global Alliance is using my name and qualifications entirely without my consent, or knowledge. Those contemplating doing business with them should be aware of this and exercise complete caution before entering into any business arrangements with that organization.

Global Finnet Limited is a genuine company registered in New Zealand and Geoffrey Taylor is Director of that company. Global Finnet will not collect money for First Global Alliance, or be connected in any way with them.

Please warn your friends about First Global Alliance.

**Signed
Geoffrey Taylor (the real one).**
